

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

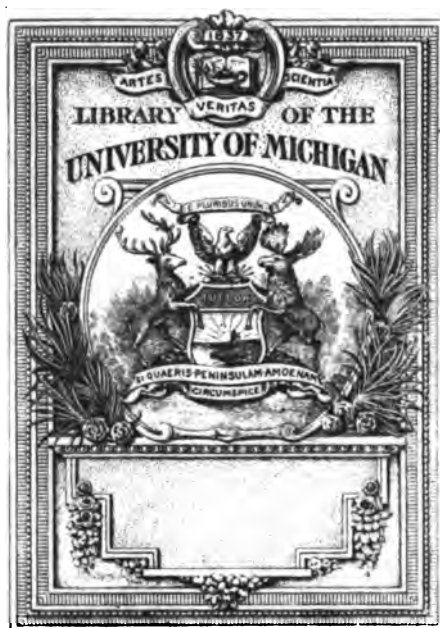

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

TRADE UNIONS.

BOARD OF TRADE (LABOUR DEPARTMENT).

REPORT

BY THE

CHIEF LABOUR CORRESPONDENT OF THE
BOARD OF TRADE

ON

TRADE UNIONS

IN

1902-04.

WITH COMPARATIVE STATISTICS FOR 1895-1904.

Presented to both Houses of Parliament by Command of His Majesty.

LONDON:
PRINTED FOR HIS MAJESTY'S STATIONERY OFFICE,
By DARLING & SON, LTD., 34-40, BACON STREET, E.

And to be purchased, either directly or through any Bookseller, from
WYMAN AND SONS, LTD., FETTER LANE, E.C.,
and 32, ABINGDON STREET, WESTMINSTER, S.W. ;
or OLIVER & BOYD, EDINBURGH ;
or E. PONSONBY, 116, GRAFTON STREET, DUBLIN.

1906.

[Cd. 2838.] Price 1s. 2d.

TO THE COMPTROLLER-GENERAL OF THE COMMERCIAL,
LABOUR AND STATISTICAL DEPARTMENT OF THE
BOARD OF TRADE.

SIR,

I HAVE the honour to present herewith the 15th Report on Trade Unions in the United Kingdom by Mr. John Burnett, the Chief Labour Correspondent of the Board of Trade. The report last issued dealt with 1901, and the present report covers the three subsequent years, thus bringing the statistics of Trade Unions, Trades Councils and Federations of Trade Unions up to the end of 1904.

I have, &c.,

A. WILSON FOX.

REPORT BY THE CHIEF LABOUR CORRESPONDENT ON TRADE UNIONS IN 1902-04, WITH COM- PARATIVE STATISTICS FOR 1895- 1904.

TO THE COMMISSIONER FOR LABOUR.

(i) INTRODUCTORY SUMMARY.

SIR,

THE present volume is the fifteenth of a series of Reports, presented to Parliament, dealing with the statistics of the membership, income, expenditure, and funds of Trade Unions in the United Kingdom.

The series began in 1886, and up to 1901 each Report dealt as a rule with one year only. Since the Report for 1901 no separate volume of Trade Union Statistics has been published by the Department, but the usual detailed information has been obtained each year and summarised in the "*Board of Trade Labour Gazette*" and in the annual "Abstract of Labour Statistics." The present Report brings together in one volume all the detailed statistics for the three years 1902-04 with comparative summary Tables going back to 1895.

The number of separate workmen's Trade Unions known to the Department as being in existence at the end of 1904 was 1,148, with a total membership of 1,866,755. In the three years of declining employment, 1902-04, there has been, as in previous periods of depression, a falling off in the membership of many Trade Unions. The total decline is from 1,940,874 at the end of 1901 (when the numbers were the highest recorded) to 1,866,755 at the end of 1904—a fall of 74,119 or 3·8 per cent. The total number of trade unionists remained, however, higher

than at the end of 1899, and much higher than during the period 1892-98, the earliest years for which comparative figures are available.

The decline was not so marked in the larger as in the smaller unions. The labourers' unions suffered most, trade unions of builders' and general labourers losing in the three years 30,000 members, or no less than 19·4 per cent. of their membership in 1901. The mining and quarrying group also lost nearly 30,000, but this represents a fall of only 5·5 per cent. of the membership of the group. These two groups account for more than three-fourths of the total loss. Considerable losses were also sustained by the tailoring group (18 per cent.), and the transport group (7 per cent.).

On the other hand a comparatively large increase in trade union membership took place during 1902-04 in the small groups of employees of Public Authorities, which gained 12,000 (or 23·6 per cent.), and of shop assistants, which increased from 19,000 to 30,000, a gain of 60·0 per cent. A gain of 7·1 per cent. by the printing and kindred trades group has also to be recorded.

During the ten years 1895-1904 there was a total increase in membership of 32 per cent., shared by all the main groups of trade unions, except those connected with the clothing trades. In the mining and quarrying group the increase amounted to 74 per cent.

Among the members of trade unions are included 125,094 women and girls; or about 6·7 per cent. of the total membership. Such members are found in only 148 of the 1,148 unions, and nearly 90 per cent. are employed in the textile trades, the cotton industry accounting for 77·4 per cent. The number of female trade unionists in 1902-04 shows comparatively little change compared with 1895-1901.

As in previous reports, financial details are given in this volume with regard to 100 principal unions only. These unions, however, include over 60 per cent. of the total membership of all the societies. In 1904 the income of these 100 unions was £2,097,470, and their expenditure £2,042,165. Their accumulated funds at the end of the year amounted to £4,616,230, or nearly £4 2s. per member. These figures all show increases on the previous year and are the highest yet recorded, but the growth of the funds was below the average in 1904, owing to the drain of payments to unemployed members, which amounted to £647,722. Of every £1 spent by the 100 unions in 1904, 6s. 4d. was for unemployed benefit, 1s. 3d. was on account of

disputes, 8s. 4d. for sick, accident, superannuation, funeral and other benefits, and 4s. 1d. for working and miscellaneous expenses.

The following summary shows the membership, income, expenditure, and accumulated funds of 100 principal unions for each of the years 1895-1904, amounts being also given per member:—

Year.	Member-ship at end of Year.	Income.		Expenditure.		Funds at end of Year.	
		Amount.	Per Member.	Amount.	Per Member.	Amount.	Per Member.
		£	s. d.	£	s. d.	£	s. d.
1895 ...	907,496	1,541,502	33 11½	1,377,352	30 4½	1,711,733	37 8½
1896 ...	957,010	1,654,130	34 6½	1,216,391	25 5	2,149,472	44 11
1897 ...	1,056,617	1,973,942	37 4½	1,903,239	36 0½	2,220,175	42 0½
1898 ...	1,031,297	1,901,111	36 10½	1,485,228	28 9½	2,636,058	51 1½
1899 ...	1,107,724	1,828,049	33 0	1,255,198	22 8	3,208,909	57 11½
1900 ...	1,149,937	1,937,041	33 8½	1,452,096	25 3	3,693,854	64 3
1901 ...	1,155,133	2,031,075	35 2	1,631,613	28 3	4,093,316	70 10½
1902 ...	1,152,834	2,077,640	36 0½	1,790,975	31 0½	4,379,981	75 11½
1903 ...	1,139,559	2,086,529	36 7½	1,905,583	33 5½	4,560,925	80 0½
1904 ...	1,127,529	2,097,470	37 2½	2,042,165	36 2½	4,616,230	81 10½

The income of the 100 principal unions exceeded £2,000,000 in each of the years 1902-04, rising from £2,031,075 in 1901 (previously the record year) to £2,097,470 in 1904. The expenditure rose from £1,632,000 in 1901 to £1,791,000 in 1902, £1,906,000 in 1903, and £2,042,000 in 1904. The accumulated funds of these unions also increased each year, and now stand at £4,616,230, or £522,914 more than in 1901. As compared with 1895, the funds have much more than doubled.

During the ten years under review, £16,060,000 has been spent by the 100 principal unions. Of this amount about £2,343,000, or 14·6 per cent. of the total, has been spent on dispute pay, £3,608,000, or 22·5 per cent. on unemployed benefits, and £6,658,000, or 41·4 per cent. on other benefits (principally sick and accident, superannuation, and funeral benefits), the remaining £3,451,000, or 21·5 per cent. having been used in the payment of

working and miscellaneous expenses. The following Table gives for each of the years 1895-1904 the figures on which these percentages have been calculated :—

Year.	Dispute Benefit.		Unemployed Benefit.		Other Benefits.		Working and Miscellaneous Expenses	
	Amount.	Per-centage of Total Expen-diture.	Amount.	Per-centage of Total Expen-diture.	Amount.	Per-centage of Total Expen-diture.	Amount.	Per-centage of Total Expen-diture.
1895	£ 197,236	14·3	£ 416,784	30·3	£ 509,723	37·0	£ 253,609	18·4
1896	166,635	13·9	362,143	21·5	513,451	42·2	272,162	22·4
1897	659,042	34·6	329,567	17·3	600,511	31·6	314,119	16·5
1898	326,615	22·1	238,724	16·1	612,686	41·3	305,203	20·5
1899	119,474	9·5	188,063	15·0	624,228	49·7	323,433	26·8
1900	149,056	10·3	263,231	18·1	681,649	46·9	358,160	24·7
1901	204,540	12·5	327,785	20·1	719,828	44·1	379,360	23·3
1902	217,976	12·2	424,046	23·7	752,699	42·0	396,254	22·1
1903	172,417	9·1	509,673	28·7	792,452	41·6	431,043	22·6
1904	126,446	6·2	647,722	31·7	850,793	41·7	417,204	20·4
Average for ten years	234,344	14·6	360,774	22·5	665,812	41·4	345,055	21·5

From this Table it will be seen that the proportion of the total expenditure accounted for by disputes in the last four years has fallen considerably. In 1904, a smaller proportion was spent on dispute pay, and a larger proportion on unemployed benefit than in any other year. In the first five years included in the Table the proportion spent on unemployed benefit steadily fell with the improvement in employment. In the remaining five years 1900-04, owing to the decline in employment, the proportion gradually increased until in 1904 it was higher than in 1895, and more than twice as great as in 1899 (a year of exceptionally good employment).

(ii) DETAILED REPORT.

ALL TRADE UNIONS.

NUMBER AND MEMBERSHIP.

Concurrently with the general increase in unemployment during the period 1902-04, and in agreement with the experience of previous similar periods, there has been a decline in the number of members of trade unions. The total membership, which had reached 1,940,874 in 1901, fell in each of the years 1902-04, and at the end of the period was 1,866,755. It still remained, however, higher than at the end of 1899, and was much higher than at the end of any year during the period 1892-98, the earliest years for which comparative figures are available.

The following Table shows the distribution by trades of all unions at the end of 1904, together with their membership and the number of branches or lodges. It will be observed that the first four main groups of trades include 1,284,331 members, or 69 per cent. of the total.

Trades.	No. of Unions.	No. of Branches or Lodges.	No. of Members.
Building :			
Labourers 	49	267	25,038
Other 	60	3,043	200,443
Mining and Quarrying :			
Coal Mining 	58	2,056	483,317
Other Mining and Quarrying ...	11	141	17,931
Metal, Engineering, and Shipbuilding...	237	2,778	335,908

Trades.	No. of Unions.	No. of Branches or Lodges.	No. of Members.
Textile	248	519	221,694
Clothing :			
Boot and Shoe	13	174	30,892
Other	24	417	27,633
Transport :			
Railway Servants	5	882	71,842
Other	52	498	82,364
Printing, &c.	41	387	62,428
Woodworking, &c.	99	633	39,571
Chemical, &c.	41	129	15,278
Food and Tobacco	27	286	17,294
Enginemen	25	187	10,567
General Labour	18	1,012	97,676
Employees of Public Authorities :			
National	32	1,314	53,480
Municipal	13	94	8,855
Other Unions	96	1,396	64,544
Total	1,148	16,213(a)	1,866,755(a)

Notes.—The figures are exclusive of those for 13 unions which did not supply sufficient particulars for the purposes of the subsequent comparative Tables. A list of these unions is given on p. 180.

(a) Including branches outside the United Kingdom. The membership of these branches amounted to 16,119, of which 8,551 belonged to the Amalgamated Society of Carpenters and Joiners, and 6,703 to the Amalgamated Society of Engineers.

The total number of unions at the end of 1904 was 1,148, as against 1,239 at the end of 1901. During recent years there has

been a noticeable tendency for smaller unions to be absorbed by larger ones in the same trades. Since 1896 the total number of trade unions, which had then reached 1,302, has steadily decreased, both in years when the total membership has increased and in years when it has declined. During the three years to which this Report relates, 54 cases of absorption and amalgamation have occurred (a).

Ninety-three unions came into existence during the three years 1902-04, and 130 unions were dissolved, in addition to the 54 previously mentioned as having been absorbed or amalgamated. There was thus at the end of 1904 a decrease of 91 unions compared with 1901.

Of the 1,074 unions that were in existence at the end of 1901 and remained in existence at the end of 1904, 632, or 59 per cent., showed a decline in membership, while 393, or 37 per cent., showed an increase. The remaining 49 unions returned the same membership for 1904 as for 1901.

The next Table shows the membership in the various groups of trades at the end of each of the years 1895-1904. As compared with 1901, it will be seen that, except in the textile trades, which on the whole show little change, all the main groups of trades have sustained a decline in membership.

In the metal, engineering, and shipbuilding trades the loss amounts to only 0·8 per cent., but in the mining and quarrying group it is 5·5, in the transport group 7·0, in the building group 9·6, and in the clothing group 11·0 per cent.

In the building trades the loss was felt chiefly by the labourers' unions, their membership declining by one-third. The other building trade unions lost 5 per cent., notwithstanding a notable increase of 3,745 in the membership of the Amalgamated Society of Carpenters and Joiners.

In the clothing trades the tailors' unions were the heaviest

(a) The following are the more important cases of amalgamation and absorption during 1902-04 :—In 1902 the National Amalgamated Furnishing Trades Association was formed by the amalgamation of the Alliance Cabinet Makers and the Operative Cabinet and Chair Makers of Scotland, and the Operative Bricklayers' Society absorbed the Bricklayers' Society of Scotland and the Bricklayers' Society of Belfast. In 1903 the Amalgamated Farriers was formed by the amalgamation of the Permanent Amalgamated Farriers, the National Amalgamated Farriers, and two small unions at Liverpool and Glasgow. In 1904 the National Amalgamated House and Ship Painters absorbed the Amalgamated House Decorators and Painters and seven smaller unions.

losers, their membership falling 18 per cent. The other unions in the clothing trades lost 7 per cent.

An analysis of the figures combined under the heading of "Other Unions" shows that while in some of the sub-groups of trades the trade union membership has seriously declined since 1901, in others it has substantially increased. The principal unions included under the above heading are those in the printing and woodworking trades, the unions of general labourers, of employees of Public Authorities, and of shop assistants. The printing and kindred trades unions (with 62,428 members in 1904) show an increase of 7·1 per cent. since 1901, the unions of employees of Public Authorities (62,335 members) an increase of 23·6 per cent., and the shop assistants' unions (30,417 members) an increase of 60·0 per cent. On the other hand the unions of general labourers lost 15·0 per cent., the membership of the Gasworkers and General Labourers' Union having dropped from 46,014 in 1901 to 29,631 in 1904. The woodworking trades (39,571 members in 1904) lost 2·9 per cent., while the remaining unions, including chemical, glass, pottery, leather, food, tobacco, and other miscellaneous trades, declined from 87,089 members in 1901 to 77,266 in 1904, a falling off of 11·3 per cent.

These figures again accord with the experience of previous years in showing that the unions paying the most varied and liberal scales of benefits suffer least from loss of membership in periods of bad trade.

Year.	Build- ing.	Mining and Quarry- ing.	Metal, Engineer- ing and Shipbuild- ing.	Textile.	Cloth- ing.	Trans- port.	Other Unions.	Total, all Unions.
1895 ..	180,510	288,736	269,223	220,506	78,069	119,855	258,868	1,415,846

1904 ..	225,481	501,248	335,908	221,694	58,535	154,206	366,693	1,866,755

As compared with 1895, all the main groups of trades, except the clothing group (which has declined 25 per cent.) show increases in membership. In the textile group the increase is slight, but in the building, metal, and transport groups it ranges from 24 to 29 per cent., while in the "other unions" group it

reaches 43 per cent. (a), and in the mining and quarrying group 74 per cent.

As pointed out in previous Reports, the great bulk of trade union membership is contained in a comparatively small number of unions. From the Table given below it will be seen that 100 principal unions included 1,127,529 members at the end of 1904, or over 60 per cent. of the membership of all trade unions. The income, expenditure, and funds of these 100 selected unions are dealt with in a subsequent section of the Report (b).

* During the years 1896-1904, 46 smaller unions, with a total membership of 12,923, were absorbed by the 100 principal unions.

The next Table shows that, while the majority of the smaller unions are not registered under the Trade Union Act, most of the larger unions are registered. Of unions with a membership of less than 500, 40.5 per cent. were registered at the end of

(a) Among "other unions," the chemical, glass, and pottery trades and the leather trades show a slight decline. The rest of the sub-groups mentioned on p. XX in comparison with 1901 show a gain as compared with 1895.

(b) It must be pointed out that a few unions which it has not been found possible to include in the selected 100 are more important than some of the unions included. The principal omission is the South Wales Miners' Federation, which was established in 1893, and has now the largest membership of all trade unions in the United Kingdom (117,097). This union was formed by the amalgamation of a number of unions for some of which it has not been possible to obtain accounts of income, expenditure and funds.

1904, but of unions with a membership of 500 and upwards, 65·2 per cent. were registered. Registered unions include 78·9 per cent. of the total membership of all trade unions (a), the average membership of the registered unions being 2,676, and of the unregistered unions, 660.

Total	550	1,472,012	598	394,743

Very little change occurred in the proportion of unions registered as compared with 1901, the figures given in the Report for that year showing that nearly 48 per cent. of all trade unions, including over 78 per cent. of trade union membership, were registered. The percentages for 1904 are the same as for 1901.

NUMBER OF WOMEN AND GIRLS IN TRADE UNIONS.

At the end of 1904 there were 148 unions which included women and girls as members, compared with 149 in 1896, the first year for which comparative figures of female trade union membership are available. The total female membership in 1904 was 125,094, or 6·7 per cent. of the combined male and female membership of all trade unions.

(a) In the Cotton trade, however, 121 unions, with 126,154 members, are unregistered, and only 17 unions with 41,565 members are registered.

NUMBER OF WOMEN AND GIRLS IN TRADE UNIONS. xxiii

While, during the years 1896 1904, the male membership of all trade unions has risen from 1,386,709 to 1,741,661, the female membership has remained almost stationary at about 120,000. The year 1904, however, shows a slightly higher female membership than any previous year.

As regards individual trades, the only group worthy of note as having shown a substantial rise in membership is that of the shop assistants' unions, whose female membership rose without a break from 327 in 1896 to 1,609 in 1901, and 3,739 in 1904.

Nearly 90 per cent. of female members of trade unions are found in the textile trades, cotton weaving accounting for 60 per cent., cotton preparing for 18 per cent., and linen and jute manufacture for 8 per cent. The Table given below shows the percentage in each trade, and the number of female members compared with the number of male and female members together.

Trades with which Unions are connected.	Unions with Female Members.			All Unions.

* In unions which admit both male and female members the exact numbers of each sex are often not known, but the numbers stated in the Table are approximately correct.

100 PRINCIPAL UNIONS.

INCOME.

The annual income of the 100 principal unions, which had grown to £2,031,075 in 1901, rose slightly in each of the years 1902-04, the figure for 1904 (£2,097,470) showing an increase of 3·3 per cent. compared with 1901 (notwithstanding a reduction in membership of 2·4 per cent.). Compared with 1895 the increase amounted to 36·1 per cent.

The following Table gives separately the income from contributions and levies and from other sources for each of the years 1895-1904. During the ten years more than 90 per cent. of the total income has been derived from contributions and levies.

Year.	Contributions and Levies. (a)		Other Sources of Income. (a)		Total Income.	
	Amount.	Per Member.	Amount.	Per Member.	Amount.	Per Member.
	£	s. d.	£	s. d.	£	s. d.

1896	1,532,984	32 0½	121,146	2 6½	1,654,130	34 6½
1897	1,725,627	32 8	248,315	4 8½(b)	1,973,942	37 4½
1898	1,706,899	33 1½	194,212	3 9½	1,901,111	36 10½
1899	1,675,805	30 3	152,244	2 9	1,828,049	33 0
1900	1,755,943	30 6½	181,098	3 1½	1,937,041	33 8½
1901	1,826,969	31 7½	204,106	3 6½	2,031,075	35 2
1902	1,854,211	32 2	223,429	3 10½	2,077,640	36 0½
1903	1,867,296	32 9½	219,233	3 10½	2,086,529	36 7½
1904	1,885,050	33 5½	212,420	3 9½	2,097,470	37 2½

(a) In some cases it has not been found possible to distinguish Entrance Fees and Fines from Contributions, and in such cases the amounts are included in the Contributions column.

(b) The year of the great dispute in the engineering trade.

The contributions per head, including special levies, show a slight rise in each year since 1899, and were 33s. 5½d. in 1904. The amount varies considerably, however, among the different unions. In the following Table the 100 unions are grouped according to the average amount contributed by their members during 1904. From this it appears that in 38 unions with 329,302 members the average contributions per member were less than £1, while in 22 unions with 332,711 members they were from £2 to £4. In the remaining 40 unions with 465,516 members the contributions per member were between £1 and £2 per annum.

Average Contributions per Member during the year 1904.	Number of	
	Unions.	Members.
7/- and under 10/- per year	3	15,222
10/- " " 15/- "	22	157,348
15/- " " 20/- "	13	156,737
20/- " " 30/- "	25	339,816
30/- " " 40/- "	15	125,700
40/- " " 50/- "	11	120,390
50/- " " 70/- "	7	95,268
70/- " " 81/- "	4	117,058
Total	100	1,127,529

The income in 1904 from sources other than contributions, consisted of fines, entrance fees, &c. (so far as distinguished from contributions), £28,825; interest, rents, &c., £130,280; subscriptions from other societies, federations, and the the public, £28,196; and miscellaneous receipts, £25,119.

The total income per head of membership of the 100 unions for each of the last ten years is shown in the next Table by groups of trades. It will be seen that the increase in income has been spread over all the main groups of trades except the clothing group, the receipts per head during 1902-04 having been generally higher than the mean of the ten years.

Year.	Building.	Mining and Quarrying.	Metal, Engineer- ing and Ship- building.	Textile.	Clothing.	Trans- port.	Other Unions.

(a) The great dispute in the engineering trade was in progress during 1897-98. For the remaining eight years the mean income in this group of trades was £3 2s. 8½d.

EXPENDITURE

Total Expenditure.

The total annual expenditure for all purposes of the 100 principal unions, which had been increased in 1897-98 by the great engineering dispute, fell to £1,255,198 in 1899. In 1900 it rose to £1,452,096 ; in 1901 to £1,631,613 ; in 1902 to £1,790,975 ; in 1903 to £1,905,585 ; and in 1904 to £2,042,165.

The predominating cause of this increase in expenditure was the increase in unemployment. While during 1902-04 the payments for dispute benefit have been below the average, those for unemployed benefit have very considerably increased. The following Table distinguishes the cost per head of unemployed benefit, dispute benefit, other benefits, and working and miscellaneous expenses :—

Year.	Dispute Benefit.	Un- employed Benefits.	Sick, Super- annuation and other Benefits.	Working and Mis- cellaneous Expenses.	Total Expenditure.
	<i>s. d.</i>	<i>s. d.</i>	<i>s. d.</i>	<i>s. d.</i>	<i>s. d.</i>
1895	4 4½	9 2½	11 2½	5 7	30 4½
1896	3 6½	5 5½	10 8½	5 8½	25 5
1897	12 5½	6 2½	11 4½	5 11½	36 0½
1898	6 4½	4 7½	11 10½	5 11	28 9½
1899	2 2	3 4½	11 3½	5 10	22 8
1900	2 7	4 7	11 10½	6 2½	25 3
1901	3 6½	5 8	12 5½	6 6½	28 3
1902	3 9½	7 4½	13 0½	6 10½	31 0½
1903	3 0½	8 11½	13 11	7 6½	33 5½
1904	2 3	11 6	15 1	7 4½	36 2½
Mean	4 5	6 8½	12 3½	6 4½	29 9

The expenditure on unemployed benefit has increased from 3*s.* 4½*d.* per member in 1899, and 5*s.* 8*d.* in 1901, to 7*s.* 4½*d.* in 1902, 8*s.* 11½*d.* in 1903, and 11*s.* 6*d.* in 1904—the worst year in the Table. Dispute benefit shows comparatively slight fluctuation during the last few years. The expenditure on other benefits has increased considerably, and working and miscellaneous expenses show a slight increase in amount. Compared with 1901

the year 1904 shows a total increase in expenditure of 7*s.* 11½*d.* per member, 6*s.* 10*d.* of which is due to unemployed benefit.

The proportionate amount expended on each of the principal benefits, and on working and other expenses, varies considerably among different unions, and especially among different trade groups. This fact is brought out in the following Table, which gives for various trades the average percentage expenditure on the various benefits, &c. for the past ten years. In the mining group in 1902, the cost of dispute benefit was double that of any other year in the Table, while in the clothing group in 1895, the year of the great dispute in the boot and shoe trade, it was nearly as great as in the whole of the subsequent years combined. In the metal, engineering, and shipbuilding trades the cost of this benefit in the two years 1897-98 was seven times as great as in the six years 1899-1904 combined, and formed nearly one-third of the total dispute expenditure of the 100 unions during the ten years 1895-1904.

Group of Trade Unions	Percentage of Expenditure in 1895-1904 on							Total Amount of Expenditure.
	Dispute Benefit.	Other Benefits.					Working and Miscellaneous Expenses.	
		Unemployed.	Sick and Accident.	Superannuation.	Funeral and other Benefits.	Total Other Benefits.

Notes.—Some form of unemployed benefit was paid in 1904 by 81 of the 100 Unions ; some form of sick and accident benefits, or grants to hospitals, by 75 ; superannuation benefit by 40 ; funeral benefit by 87. All four benefits were paid by 36 unions. Dispute benefit is paid by all trade unions when considered necessary ; 80 out of the 100 spent money under this heading in 1904.

It will be seen that while in the printing and textile trades a large proportion of the total expenditure was devoted to the payment of unemployed benefit, and a small proportion to the

xxviii. DETAILED REPORT—100 PRINCIPAL UNIONS.

payment of sick benefit, in the clothing trades the contrary was the case. By far the largest proportion of the total expenditure devoted to the payment of working and miscellaneous expenses occurs in the transport group and in the general labour and miscellaneous group, a type of trade unions whose objects do not, as a rule, include unemployed and other friendly benefits.

Dispute Benefit (a).

It is the practice of all trade unions to assist their members when thrown out of employment by trade disputes. In 1904, 80 of the 100 principal unions, representing 90 per cent. of their membership, expended money under this head. The following Table summarises the amounts paid by unions in each of the main groups of trades for the years 1895-1904.

Year.	Building.	Mining and Quarrying.	Metal, Engineering and Ship-building.	Textile.	Clothing.	Transport.	Other Unions.	Total—100 Principal Unions.
1895	£ 18,438	£ 41,403	£ 44,362	£ 19,764	£ 60,186	£ 2,394	£ 10,689	£ 197,236
1896	34,344	39,478	52,906	16,399	5,665	3,460	16,383	168,635
1897	20,267	43,374	521,788	29,307	18,297	2,480	23,529	659,042
1898	18,563	50,149	190,324	18,128	5,688	10,710	35,053	328,615
1899	57,728	18,311	12,843	5,921	3,046	2,637	18,968	119,474
1900	69,319	11,664	22,195	12,094	6,164	11,114	16,500	149,056
1901	84,735	67,434	18,705	8,838	4,069	4,761	16,008	204,540
1902	35,400	128,479	14,908	11,039	3,729	2,885	21,546	217,976
1903	43,396	60,526	16,337	14,325	17,781	5,936	14,116	172,417
1904	24,410	46,459	18,010	14,298	4,674	3,756	14,839	126,446

The total amount expended on dispute benefit during the last three years shows no great change as compared with 1899-1901. The amount per head of total membership rose from 2s. 2d. in 1899 to 3s. 9½d. in 1902, and fell to 2s. 3d. in 1904. For 1895 the amount per head was 4s. 4½d. For 1897 it was 12s. 5½d. owing mainly to the great dispute in the engineering trade which began in that year.

In the mining and quarrying group a considerable increase took place in 1902, the greater part of the expenditure being incurred by the Yorkshire Miners' Association. In 1903 the figure for the clothing group shows a large increase owing mainly to a dispute affecting the Scottish Tailors' Association. In the building trades, on the other hand, a decline in expenditure on

(a) In some cases it has not been possible to distinguish precisely the amount paid for disputes from that paid for ordinary unemployment. In such cases the amount has been estimated, where possible, and treated as dispute benefit.

dispute pay is shown in 1902-04 compared with 1899-1901, the average amount paid per head of membership having fallen from 7s. 0½d. to 3s. 6¼d. per annum (a). The Amalgamated Society of Carpenters and Joiners, whose expenditure on dispute pay averaged £26,177 during 1899-1903, expended only £4,943 on this benefit in 1904.

Unemployed Benefits.

Under the heading of "Unemployed Benefits" are included not only ordinary weekly benefit or "Donation," but also payments to members travelling in search of employment, payments on account of fires at works, failures of firms, temporary stoppages and breakdowns of machinery, emigration grants (b), special grants during times of excessive slackness in trade, and all other payments on account of unemployment, except such as have already been treated of under the head of "Dispute Benefit." During 1904, 81 of the 100 unions, representing 84 per cent. of the total membership of the 100, paid unemployed benefit in one form or another, and sometimes in several forms. The expenditure incurred by the 100 unions on unemployed benefit during the ten years 1895-1904 is shown below by groups of trades.

Year.	Building.	Mining and Quarry- ing.	Metal, Engineer- ing and Ship- building.	Textile.	Clothing.	Trans- port.	Other Unions.	Total— 100 Principal Unions.
	£	£	£	£	£	£	£	£
1895	52,345	68,046	192,305	50,147	2,901	3,505	47,535	416,784
1896	25,099	42,896	113,032	35,240	3,400	3,091	40,335	262,143
1897	24,216	24,877	194,610	42,136	1,995	3,357	38,376	329,567
1898	22,249	13,735	107,610	35,934	2,121	17,779	40,196	239,724
1899	24,277	10,247	81,512	27,117	1,379	3,017	40,514	188,068
1900	46,355	4,419	93,822	61,662	1,638	3,612	51,723	263,231
1901	67,328	17,737	134,743	45,062	1,721	3,480	57,804	327,785
1902	73,804	18,876	204,735	56,666	1,357	3,385	65,241	424,046
1903	80,803	18,020	224,043	114,324	1,516	3,590	67,378	509,673
1904	157,392	47,190	304,534	71,638	1,785	4,400	80,783	647,723

(a) Compared with 1895-98 there was a slight increase, the average dispute pay per head during those four years having been 2s. 9½d.

(b) In 1904 fifteen of the 100 unions paid emigration allowances amounting in all to £1,371. Of this total £585 was paid by unions of cabinet makers and cigarmakers, which include many foreigners in their membership, and £278 was paid by two unions of workpeople engaged in the Irish linen industry. The only other unions which paid so much as £100 for this benefit in 1904 were the London Compositors (£222) and the Amalgamated Railway Servants (£280). The last-mentioned amount, however, was consequent upon a dispute on an Irish railway, and is not included in the total of £1,371, but has been treated as a form of dispute benefit.

xxx DETAILED REPORT—100 PRINCIPAL UNIONS.

It will be seen that a greater expenditure was incurred on this benefit during the years 1902-04 than in any other years in the Table, the total spent in these three years (£1,581,441) being only slightly less than that expended during the previous six years, 1896-1901 (£1,609,513).

In the metal, engineering, and shipbuilding group, the total expenditure on unemployed benefit has risen every year since 1899. In the building group (many of the unions in which, however, do not pay this benefit) it has risen every year since 1898, and a greater amount was spent during the three years 1902-04 than during the previous seven years combined. The Amalgamated Society of Carpenters and Joiners, which is the largest union in the group, and is responsible for considerably more than half of the total expenditure of the group on unemployed benefit, spent 25*s.* 8*d.* per head of its membership in 1904, compared with 13*s.* 10½*d.* in 1901-03, 9*s.* 5½*d.* in 1900, 5*s.* 5½*d.* in 1896-99, and 17*s.* 7½*d.* in 1895.

The expenditure on unemployed benefit per head of membership of five of the largest unions in the metal, engineering, and shipbuilding trades group is shown below for the ten-year period. In each case it will be seen that 1904 was the worst year.

Year.	Iron-founders (England).	Iron-moulders (Scotland).	Engineers.	Steam Engine Makers.	Boiler- makers and Ship- builders.
	<i>s.</i> <i>d.</i>	<i>s.</i> <i>d.</i>	<i>s.</i> <i>d.</i>	<i>s.</i> <i>d.</i>	<i>s.</i> <i>d.</i>
1895	34 0½	33 4½	24 1½	16 5½	19 5½
1896	12 11½	14 7½	11 5½	6 3½	17 3
1897	35 11½	19 8½	17 9½	11 7½	22 0½
1898	19 7½	13 3½	8 11½	8 3	9 8½
1899	7 5½	12 5	10 10	6 5	4 10½
1900	12 2	27 3½	9 8	4 9½	5 9½
1901	27 1½	23 2½	11 11½	7 3½	10 4
1902	31 0½	31 1½	17 10	11 8½	23 6
1903	26 1½	30 11½	17 9½	11 9	29 8½
1904	42 6½	34 11½	25 1	19 6½	33 11

In the textile trades, the year 1903 was by far the worst, short time and unemployment having been prevalent in the cotton trade owing to shortage in the supply of American cotton. The Amalgamated Association of Operative Cotton Spinners, the most important union in the textile group, spent 38*s.* 6½*d.* per

UNEMPLOYED, SICK AND ACCIDENT BENEFITS. xxxi

head of membership in unemployed benefit during 1902, 61s. 11½d. during 1903, and 41s. 5½d. during 1904, compared with 22s. 1d. in 1901, 36s. 0d. in 1900, and an average of 21s. 9½d. in the five years 1895-99.

The mining, clothing, and transport groups do not pay much in the way of unemployed benefit, the expenditure in 1904 per head of total membership of the unions in these groups being 3s. 7½d., ½d., and 9d. respectively.

Out of the total amount paid by "Other Unions" during 1895-1904, 61·3 per cent. came from seven unions in the printing and bookbinding trades. These unions show comparatively little increase in the amount of unemployed expenditure in 1902-04 as compared with 1900-01, the average cost per member during the later years being 17s. 2½d., and during the earlier years 16s. 7½d. For 1895-99 the average was 13s. 11½d.

Sick and Accident Benefits.

The following Table shows the amount expended in 1895-1904 by the 100 principal unions in various forms of sick and accident benefit. By far the most important part of this expenditure consists of weekly payments, but several unions pay lump sums as bonuses in cases of disablement by accident, and in a few cases medical attendance is provided for sick members, while some unions make grants to hospitals. In 1904, 75 of the 100 unions, with 78 per cent. of the membership of the 100, made payments under one or more of the above headings.

Year.	Building.	Mining and Quarrying.	Metal, Engineering and Ship-building.	Textile.	Clothing.	Transport.	Other Unions.	Total—100 Principal Unions.
	£	£	£	£	£	£	£	£
1895	64,381	24,063	117,373	7,106	26,065	7,423	12,330	267,711
1896	61,047	24,712	106,102	8,315	22,789	7,056	10,806	239,827
1897	66,186	31,450	110,571	7,051	24,351	7,717	11,735	269,060
1898	74,855	28,016	114,283	7,589	23,027	8,887	11,912	268,569
1899	81,019	31,941	122,359	8,481	22,394	10,247	13,069	289,530
1900	89,831	33,852	130,383	7,869	21,729	11,933	13,513	308,900
1901	94,207	36,438	136,318	7,921	23,868	11,835	15,856	328,443
1902	97,808	39,134	145,461	8,324	20,772	11,277	17,730	340,506
1903	100,756	43,562	155,845	6,831	19,403	17,841	18,232	362,370
1904	105,893	47,968	164,340	7,330	20,576	18,373	20,019	384,519

The increase in the total amount expended on these benefits from £267,711 in 1895 to £384,519 in 1904 was, of course,

xxxii DETAILED REPORT—100 PRINCIPAL UNIONS.

largely due to growth in the membership of the unions included in the Table. There has, however, during the last few years, been a noticeable increase in the cost per head of membership, as is shown in the following summary :—

Year.				Average Amount of Sick and Accident Benefits per Member of 100 Unions.	Year.				Average Amount of Sick and Accident Benefits per Member of 100 Unions.
				s. d.					s. d.
1895	5 8½	1900	5 4½
1896	5 0	1901	5 7½
1897	4 10½	1902	5 11
1898	5 2½	1903	6 4½
1899	5 2½	1904	6 9½

It will be seen that during the last four years the cost of sick and accident benefits has increased by 1s. 5½d. per member. Some part of this increase may be explained by the fact that alterations have been made in the sick rules of the United Society of Boilermakers and the Amalgamated Association of Tramway and Vehicle Workers, the amount of benefit payable to sick members by these unions having been increased. A further explanation appears in the increasing proportion of the members of the Durham Miners' Association, Associated Shipwrights' Society, and Operative Bricklayers' Society, who have joined the "sick" departments of their respective unions. The five unions referred to account for 1s. 0½d. out of the total increase since 1900 of 1s. 5½d. The causes mentioned, however, appear on examination to be hardly sufficient to account for the large increase in the case of these five unions. In the case of the remaining 95 unions, to which the foregoing explanations do not apply, the amount of sick benefits per member, after having dropped from 4s. 5½d. per member in 1895 (the last year of a period of bad trade) to 4s. 0d. in 1896-1900, rose again to 4s. 4½d. in 1901-03 and 4s. 9d. in 1904. There seems therefore some tendency for unemployed and sick benefits to rise and fall together. The general secretary of the Operative Bricklayers' Society (a), in the annual report of his union for 1903, makes the following comments on the recent increase in the cost of sick benefit :—

"This benefit reflects to a considerable extent the state of trade ; many of our members are unable to provide for emergencies, and when unemployed for any length of time become debilitated for want of proper nourishing food, and they are compelled to seek medical relief, and consequently fall on the sick benefit."

(a) This Society pays no unemployed benefit.

Superannuation Benefit.

Superannuation benefit is paid by a comparatively small number of the 100 unions, principally in the engineering, shipbuilding, building, and printing trades. None of the miners', weavers', and labourers' unions pay this benefit; but in the case of the miners it is provided by Miners' Permanent Relief Societies.

The form taken by superannuation benefit is in nearly all cases that of a weekly payment, such payments varying greatly in amount. In some cases no more than 2*s.* a week is paid; in a few instances the amount reaches 12*s.* per week. More commonly, however, it lies between 5*s.* and 10*s.*

It should be understood that the fact that a member of a union paying superannuation benefit has arrived at a certain age and has completed the prescribed period of membership does not necessarily entitle him to the benefit. The rules of some of the unions state that, in order to be eligible for the benefit, a member must be unable to work at his trade, or at any rate be unable to earn full wages.

In 1904, 40 of the 100 principal unions, including 49 per cent. of the total membership of the 100, paid superannuation benefit to the amount of £267,396, or 9*s.* 7½*d.* per member of the unions paying the benefit. The following Table compares the figures for 1904 with those for previous years :—

Year.	Unions paying Superannuation Benefit.		Amount expended on Superannuation.	
	Number.	Total Membership.	Total.	Per Member.*
1895	40	439,003	£ 129,241	<i>s. d.</i> 5 10½
1896	39	475,146	139,783	5 10½
1897	39	539,933	149,388	5 6½
1898	39	515,629	160,829	6 2½
1899	39	542,627	175,707	6 5½
1900	39	559,442	186,530	6 8
1901	38	544,920	199,593	7 4
1902	39	551,977	219,096	7 11½
1903	39	553,554	239,734	8 8
1904	40	554,428	267,396	9 7½

* Based on the total membership of the unions paying the benefit.

xxxiv DETAILED REPORT—100 PRINCIPAL UNIONS.

It will be seen that the amount expended on superannuation per head of membership of the unions paying the benefit has increased every year from 5*s.* 6½*d.* in 1897 to 9*s.* 7½*d.* in 1904.

The greater part of the expenditure on this benefit is sustained by four large unions, viz., the Amalgamated Society of Engineers (which expended £111,368 in 1904), the Amalgamated Society of Carpenters and Joiners (£32,015), the United Society of Boilermakers and Iron and Steel Shipbuilders (£25,561), and the Friendly Society of Ironfounders of England, Ireland, and Wales (£19,662). No other union spent as much as £10,000 on superannuation in 1904.

Funeral Benefit.

Eighty-seven unions, representing 90 per cent. of the membership of the 100 unions, pay funeral benefit on account of deceased members, and, in some cases, on the death of members' wives and widows, a few also providing for the funerals of the children or parents of members. The average cost of this benefit per member of the 100 unions during the years 1895-1904 was 1*s.* 7½*d.* The amount per member showed little variation year by year. In 1895 it was 1*s.* 7½*d.*, in 1904, 1*s.* 8½*d.*

Year	Building.	Mining and Quarrying.	Metal, Engineering and Ship-building.	Textile.	Clothing.	Transport.	Other Trades.	Total—100 Principal Unions.
1895	£ 15,092	£ 8,041	£ 27,315	£ 5,844	£ 4,757	£ 4,317	£ 8,938	£ 74,204
1896	16,256	8,285	26,667	5,205	4,312	4,016	8,613	73,354
1897	17,148	8,442	28,714	5,421	4,238	4,553	9,190	77,706
1898	19,024	8,656	29,929	5,424	4,178	4,809	9,387	81,407
1899	20,738	9,550	33,178	5,643	4,766	5,595	10,945	90,406
1900	22,418	9,992	35,947	5,688	4,332	5,624	11,684	95,685
1901	22,106	12,683	35,086	5,574	3,897	5,673	10,784	95,903
1902	21,283	12,045	35,068	5,443	3,963	6,018	11,476	95,296
1903	20,426	12,810	33,797	5,481	3,587	5,466	10,934	92,501
1904	20,578	12,993	35,809	5,255	3,672	5,834	11,343	95,644

Funeral benefit is paid by every union in the building, metal, and transport groups. Of the 13 unions which do not pay this benefit, 9 are in the mining and quarrying group, where friendly benefits are provided in part by Permanent Relief Societies.

The cost of funeral benefit in 1904 per member of the unions in various groups of trades varied from 2*s.* 11*d.* in the metal trades and 2*s.* 2½*d.* in the building group to 10½*d.* in the textile group and 11 *d.* in the mining and quarrying group.

FUNDS IN HAND.

The funds in hand of the 100 principal trade unions rose from £4,093,316 (or £3 10s. 10½d. per member) at the end of 1901 to £4,616,230 (or £4 1s. 10½d. per member) at the end of 1904—a gain of 11s. per member. During the three years 1899–1901 there had been a gain of 19s. 9d. per member, but in the three years 1902–04 the increase in unemployment, and consequent drain on the funds, lessened the rate of progress in the accumulation of capital. The total at the end of 1904 was, however, nearly three times as large as in 1895.

The following Table shows the amount of funds held at the end of each of the years 1895–1904 by the 100 principal unions, grouped according to trade :—

Year.	Building.	Mining and Quarrying.	Metal, Engineering and Ship-building.	Textile.	Clothing.	Transport.	Other Unions.	Total—100 Principal Unions.
	£	£	£	£	£	£	£	£
1895	230,106	255,420	518,735	388,390	42,759	228,758	149,567	1,711,733
1896	276,998	324,881	706,535	353,237	58,245	255,767	173,819	2,149,472
1897	336,824	388,682	563,314	402,523	46,680	284,456	197,946	2,220,175
1898	411,280	441,006	741,036	466,448	58,496	294,237	223,553	2,636,066
1899	465,359	563,720	961,576	545,764	70,551	331,089	251,080	3,208,909
1900	476,129	720,665	1,196,238	581,902	77,561	368,189	271,140	3,693,854
1901	453,318	835,383	1,381,619	641,672	87,347	405,601	288,577	4,093,316

1903	466,195	1,020,002	1,562,942	669,987	98,016	450,211	293,572	4,560,925
1904	407,161	1,108,040	1,525,011	701,622	102,112	489,300	282,984	4,616,230

As compared with 1901, the mining and quarrying group gained £272,658 (or 32·6 per cent.); the metal, &c., trades £143,392 (or 10·4 per cent.); the textile trades £59,950 (or 9·3 per cent.); the clothing trades £14,765 (or 16·9 per cent.); and the transport trades £83,699 (or 20·6 per cent.). Decreases were sustained by the building trades group of £46,157 (or 10·2 per cent.), and by the miscellaneous group of £5,393 (or 1·9 per cent.).

The decrease in the building group was due chiefly to exceptionally heavy expenditure on unemployed benefit by the Amalgamated Society of Carpenters and Joiners, especially in 1904.

Of the total gain in the mining and quarrying group, the Durham Miners' Association is responsible for over £110,000,

xxxvi DETAILED REPORT—100 PRINCIPAL UNIONS.

while the Derbyshire and Nottinghamshire Associations together account for another £100,000. The Yorkshire Miners' Association was the only important union in this group whose funds at the end of 1904 were less than at the end of 1901. The decrease (£4,023) was owing chiefly to heavy expenditure on trade disputes in 1902.

In the metal, engineering, and shipbuilding trades, more than three-fourths of the saving was accomplished by the Amalgamated Society of Engineers, whose funds advanced from £492,357 in 1901 to £605,981 in 1904. The funds of the Friendly Society of Ironfounders, on the other hand, decreased by £16,632, and those of the Boilermakers' Society by £39,137, during the three years.

In the transport trades, the unions of railway servants accounted for £66,811 out of the total gain during 1902-04.

Most of the funds of "Other Unions" are the property of unions in the printing and bookbinding trades. In these trades the total funds remained nearly stationary, being £169,000 at the end of 1901 and £168,000 at the end of 1904.

As compared with 1895, the Table shows that there has been a very great increase in the accumulated funds of trade unions, and that this increase has been shared by all the groups of trades. The following summary shows the amount of funds per head of total membership in the various groups at the end of the years 1895 and 1904.

Year.	Building.	Mining and Quarry- ing.	Metal, Engineer- ing, and Ship- building.	Textile.	Clothing.	Trans- port.	Other Unions.	Total— 100 Principal Unions.
	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.	s. d.
1895	31 10½	25 6½	55 0	51 3½	13 11½	53 2½	25 10½	37 8½
1904	43 4½	84 10½	124 0½	117 0	48 2	83 6½	37 4½	81 10½

The next Table shows the total funds and the amount per head of membership in 1895 and 1904 for twenty unions which in 1904 each possessed funds amounting to £50,000 or more. The funds of these twenty unions amounted at the end of 1904 to £3,628,243, or 79 per cent. of the funds of the 100 principal unions. Only two of the twenty show a decrease in funds per member, as compared with 1895, and most of them show a large increase, the Derbyshire and Nottinghamshire Miners having

FUNDS IN HAND.

xxxvii

gained over £5 per member, the Ironmoulders of Scotland and the Patternmakers over £6, and the Cotton Spinners over £13.

Total for 20 Unions ...	1,326,570	3,628,243	2 10 1½	5 8 8½

The remaining 80 unions account for 41 per cent. of the membership, but only 21 per cent. of the funds of the 100 principal trade unions at the end of 1904. Out of these 80 unions only 5, with 11,181 members, had funds amounting to £5 per member. Thirty-one unions, with 171,747 members, had funds between £2 and £5; 26 unions, with 137,251 members,

xxxviii DETAILED REPORT—100 PRINCIPAL UNIONS.

had £1 and less than £2; while 18 unions, with 139,922 members, had less than £1 per member. The average funds per head of membership of the 80 unions has, however, more than doubled during the ten-year period, the increase having been from £1 0s. 4½d. in 1895 to £2 2s. 11½d. in 1904.

The disposition of the funds of the 100 principal unions is shown in the Table below. A large proportion of the total amount is so held as to be readily available in case of emergency. The amount gained since 1901 has been chiefly invested in Corporation stock and advanced on mortgages to members and others.

Mode of Disposition of Funds.	Total Amount at end of 1904.

Disposition not shown	343,345
Total	£4,616,330

(a) Including the value of goods in stock, office furniture, &c., which however forms but a very small proportion of the total amount.

FEDERATIONS OF TRADE UNIONS.

For the purposes of this report a "Federation" is taken to mean an association either of trade societies connected with the *same* industry, or of societies belonging to *several* industries with varying degrees of relationship. Federations are organised for certain specific purposes with limited and defined powers over the constituent societies, such powers varying very much according as the Federation is one of unions of the same or of several distinct industries.

A Federation differs from a trade union in that its constituent members are not individuals but unions.* It differs from a Trades Council in that it possesses certain powers of direction over its affiliated societies or branches, and is not merely consultative in character. Federations, however, vary so much in objects and constitution that they are difficult of classification, and it is not always easy in practice to maintain the above distinctions rigidly. Some Federations possess most of the powers of a trade union organised for trade purposes only; others are organised for the regulation of the mutual relations of unions engaged in different and varied occupations, but belonging to the same industrial group; while others again are more in the nature of Trades Councils. Another variation in Federations arises from the extent of the area covered, many being confined to one town, others embracing large districts, while some include all, or nearly all, of the trade unionists in the trade or trades with which they are connected.

Building trades Federations are mostly formed of allied or kindred trades, and are generally of a local character. The metal and printing groups are also mainly Federations of several trades. On the other hand, the mining and textile groups are largely formed of Federations of unions belonging to the same trade.

The "single trade" Federations usually have power to levy contributions from the members of the constituent unions for the support of those engaged in disputes. The "several trades" Federations, on the other hand (excepting the General Federation of Trade Unions) are, as a rule, restricted to suggesting a levy or appealing for support, in much the same way as a Trades Council. The ordinary expenses of nearly all Federations are met by contributions, from the constituent unions, of a lump sum based on the declared membership of such unions, the amount per member usually varying from 1*d.* to 3*d.* per quarter.

At the end of 1904 the number of Federations of trade unions in existence, so far as reported to the Department, was 93, having a gross membership of 1,851,378. The following summary shows for 1900-04 the distribution of the Federations over the different industrial groups. The membership given in the Table is the number of members for whom the trade unions and branches of trade unions paid fees to the Federations. Many unions are affiliated to more than one Federation, so that it is necessary to remember that the membership figures are gross totals, involving some duplication.

* In local federations a branch of a union may be affiliated.

Some particulars are appended of three of the largest federations :—

General Federation of Trade Unions.—This Federation, which was established in 1899, consisted at the end of 1904 of 91 associations, with 396,226 members, including 33 (with 170,204 members) in the engineering, shipbuilding and metal group, 19 (with 97,919 members) in the textile and clothing groups, 11 (with 81,786 members) in the transport and general labour groups, and 28 (with 46,317 members) in other trades. The building group was but slightly represented. The miners were unrepresented in this Federation, most of the miners' unions belonging to the Miners' Federation of Great Britain (*see below*). The largest individual associations affiliated at the end of 1904 were the Amalgamated Society of Engineers, the Friendly Society of Ironfounders, the Associated Shipwrights' Society, the Amalgamated Associations of Card and Blowing Room Operatives (itself a Federation), the Amalgamated Association of Cotton Spinners, the National Union of Boot and Shoe Operatives, the Amalgamated Society of Tailors, the Dock, Wharf, Riverside, and General Workers' Union, the Gas Workers and General Labourers' Union, the National Amalgamated Union of Labour, and the London Society of Compositors.

Of the total number of unions affiliated, 64 (representing three-fourths of the total affiliated membership) were on the higher scale of contributions and benefits, paying (in 1904) 6*d.* per quarter per member and receiving 5*s.* per week per member involved in disputes approved by the Federation, while 27 unions

were on the lower scale, paying half contributions and receiving half benefits. For the year ended March, 1905, the contributions of the affiliated unions to the Federation amounted to £25,580.

In January, 1905, the funds in hand amounting to over £100,000, it was decided to reduce the rates of contribution to 4d. per quarter per member for the higher scale and 2d. for the lower scale, the benefits remaining as formerly. Under the new rules, however, in the event of the funds falling below £100,000 the contributions will immediately revert to 6d. and 3d. per member respectively; and further, as in the former rules, the Management Committee have power to order the ordinary rates of contribution to be doubled in case of emergency.

Miners' Federation of Great Britain.—This Federation had 326,618 members at the end of 1904, showing comparatively little change as compared with 1901, but an increase of over 100 per cent. as compared with 1895. It included at the end of 1904 most of the principal trade unions of coal miners in Great Britain, with the exception of the Durham and Northumberland Associations, which dissent from one of the objects of the Federation, viz., to obtain the legislative limitation of hours of employment in coal mines to eight per day.

The ordinary contributions to the Federation are fixed at one penny per member per quarter. Cases of disputes are considered by special conferences, which have power to raise the funds necessary to provide benefit by means of levies upon the various districts. In cases of approved disputes support is given to the unions affected at the rate of 5s. per week per member involved, benefit commencing three weeks after the beginning of the dispute.

For the year ended September, 1904, the income of the Federation from ordinary contributions was £5,561. It also received levies amounting to £4,155 for the purpose of meeting expenditure incurred by the Federation in connection with the Denaby law case, and levies amounting to £4,158 for the purpose of labour representation. The balance in hand at the end of the year was £24,533.

Federation of Engineering and Shipbuilding Trades of the United Kingdom.—Among the principal associations affiliated to this Federation are the Amalgamated Society of Engineers, the Amalgamated Carpenters and Joiners, the Boiler-makers and Iron Shipbuilders, the Associated Shipwrights, the National Amalgamated Painters and Decorators, the United Plumbers, the Steam Engine Makers, the Ironmoulders of Scotland, the National Amalgamated Furnishing Trades Association, the Brassfounders, the Patternmakers, and the Mill-sawyers and Woodworking Machinists. The Federation intervenes when called upon in cases of disputes between affiliated

associations and employers, and also between one and another of the affiliated associations, on questions such as the demarcation of work between trades.

Membership of this Federation entails no financial liability beyond the payment of a share of the cost of necessary working expenses.

At the end of 1904 the total number of organisations affiliated was 26, and the membership 344,208 ; the increase (104,216) as compared with 1903 being chiefly due to the inclusion of the Amalgamated Society of Engineers.

TRADES COUNCILS.

Trades Councils have no power to direct the action of the unions represented, or to levy funds in aid of those on strike or for other purposes. They frequently, however, take under consideration the cause or object of a trade dispute, and, if satisfied, grant credentials empowering funds to be collected under their name and authority. They also issue appeals to the unions on behalf of those engaged in disputes, and distribute the funds collected. Occasionally they make small grants out of their own funds to those on strike or locked-out.

The income of a Trades Council is derived mainly from contributions, which are usually 1*d.* or 2*d.* per year for each trade unionist represented, with a reduction in some cases for large numbers. The expenditure is, as a rule, nearly all in the nature of working expenses.

The Table given below shows the total number of Councils, and the number of trade unionists represented, in each of the years 1895-1904. During this period the Councils have steadily increased until in 1904 they were one-third higher in number and one-fourth higher in membership than at the end of 1895 :—

Year.	No. of Councils.	No. of Members of Trade Unions represented. (a)
1895	166	703,322
1896	164	711,668
1897	169	713,908
1898	173	719,361
1899	179	710,987

TRADES COUNCILS.

xliii

Year.	No. of Councils.	No. of Members of Trade Unions represented. (a)
1900	181	761,493
1901	189	796,098
1902	194	815,716
1903	210	850,978
1904	228	874,959
Increase of 1904 over 1895	62	171,637

(a) The number of trade unionists represented is frequently less than the actual number of members in the unions or branches affiliated to the councils. The figures given in the Table represent the number of members for whom the trade unions paid fees to the councils.

Of the largest twenty Trades Councils, each of which represents more than 10,000 trade unionists, eighteen were established before 1891 and twelve before 1874. The total membership represented by these twenty Councils at the end of 1904 was 432,038, or about half of the total membership of the 228 Councils in existence at that time. Among the smaller Councils a large proportion are of more recent establishment. Out of 87 Councils each representing less than 1,000 members at the end of 1904, 60 were formed during the period to which the Table relates.

ALL TRADE UNIONS.

I. TOTAL MEMBERSHIP OF EACH TRADE UNION AT END OF EACH OF THE YEARS 1900-1904.

N.B.—Where not otherwise stated the Members are Males. In Unions which admit both male and female members the exact numbers of each sex are often not known, and the numbers shown in the Table are only approximately correct.

[THE NAMES AND ADDRESSES OF THE SECRETARIES OF TRADE UNIONS ARE GIVEN IN A DIRECTORY OF INDUSTRIAL ASSOCIATIONS PUBLISHED PERIODICALLY BY THE LABOUR DEPARTMENT, BOARD OF TRADE.]

Refer- ence No.	TITLE OF TRADE UNION. (Unions whose accounts are analysed on pp. 104-143 are in italics.)	Year in which formed.		BRANCHES at end of 1904.
		Regis- tered Unions.	Unregis- tered Unions.

1905	Hanley ..	458	154	(e)	1,469,514	(e)	2,814

(a) This Conference was called, primarily, to consider the question of lock-outs and the action of Trade Unions with regard thereto. Out of this Conference sprang the Alliance of Organized Trades.

(b) This Conference was called, primarily, to consider what action should be taken with respect to the proposed Royal Commission of Inquiry into Trade Unions.

(c) No Congress was held in 1870.

(d) In 1875 two Congresses were held—in January and October.

(e) Trades Councils were not represented at the 1895 and following Congresses.

APPENDIX I.

INCOMPLETE MEMBERSHIP RETURNS.

MEMBERSHIP, so far as known, in **1900-1904**, of **ASSOCIATIONS** in existence at the end of one or more of those years, respecting which it has not been found possible to obtain complete particulars.

Year in which formed. (a)	Title of Association.	Membership at end of

INDEX TO MEMBERSHIP TABLE.

[The occupations referred to in the Title of each Trade Union are separately indexed, but it must be understood that many Unions admit Members whose occupations are not explicitly mentioned in the Titles of the Unions.]

A.			Page.				Page.
Account Book Binders	66	Beamers, Twisters, and Drawers	38-43
Admiralty Employees	96	Bedstead Workers	34
Agents, Assurance	90	Beetling Enginemmen	48
Agricultural Labourers	64	Bellhangers	18
Alkali Workers	76	Benders, Wool Shear	28
Aluminium Moulders	20	Bevellers, Glass	76
American Organ Makers	74	Bill Posters	94
Anchor Makers	34	Biscuit Bakers	80
Antimacassar Makers, Wool	46	Bit and Stirrup Workers	34
Anvil and Vice Makers	34	Blacking Workers	92
Arms Factory Employees, Small	98	Blacksmiths	18
Army Clothing Employees	98	————, Fork Drawers, &c	34
Artists, Lithographic	66	————, Wheelwrights and	70
Artizans' Association, Welsh	16	Blade Makers (Cutlery)	28
Art Metal Workers	18	Blanket Raisers	46
Asphalte Workers	92	Blastfurnacemen	16
Assurance Agents	90	Bleaching (Textile)	52
Athletic Wood Workers	74	Blind Workpeople	82
Authorities, Employees of Public	96-101			Block Chain Makers	32
B.				Blockers, Card	68
Bacon Curers	80	Block Printers (Textile)	52
Bakers and Confectioners	80	————, Roller, and Stamp Cutters	22
Ball Makers, Cricket	86	Blowers, Glass	76
—— Warp Brush Beamers	42	Blowing Room Operatives	34-37
Bamboo Workers	82	Board Makers, Rolling	74
Bandage Makers, Surgical	50	Boatmen, Canal	60-63
Band Makers, Mill	84	————, Steam Tug	60
Barbers	94	Bobbin Makers	22
Barge Builders	24	—— Winders	44
Bar Makers (Textile Machinery)	22	Body Makers, Coach	70
Barometer Makers	76	Boiler Makers	22
Basket Makers	82	—— Men	86-89
Bass Dressers	82	————, Colliery	10, 12
Beam and Sectional Warpers	42	———— (Iron & Steel Works)	16
				—— Scalers	24
				—— Shop Labourers (H.M.S.)	96
				Bolt Makers	32
				Bone Brush Makers	82
				—— Button Makers	92

	Page.		Page.
Bookbinding and Machine Ruling	66	Calico Printers, Engravers to	90
Book Edge Gilders	66	Canal Boatmen, &c.	60-63
Bookfolders	66	Cane Workers	82
Boot and Shoe Trades	54	Canister Makers, Tin	26
Borough Council Employees	100	Cap Makers	56
Bottle Makers, Glass	76	Card Blockers, Edge Gilders	68
Box Makers, Cardboard	68	Cardboard Box Makers	68
—, Cigar	82	Card Cutters, Grinders	22
—, Fancy	68	— Makers, Pattern	88
— Packing	74	— Punchers (Lace Trade)	50
— (Printing, &c., Trades)	68	— Room Operatives	34-37
—, (Textile Machinery)	22	— Setting and Dressing	46
Braid Makers, Elastic	50	Caretakers	92
— (Silk)	52	Carmen	58-61
Brass and Copper Trades	20	Carpenters and Joiners	2
— Dressers	16	— (Colliery)	12
Brasses Makers, Fire	34	— Railway Wagon	70
Braziers	20, 26	—, Theatrical	92
Bread Van Drivers	80	Carpet Manufacture	50
Brewers' Coopers	70-73	— Planners	70
Brewery Operatives	80	Carriage Builders	70
Bricklayers	2	— Drivers	60
Bricklayers' Labourers	6-9	— Makers, Bobbin and	22
Brick Makers	78, 94	— Straighteners	22
Bridle Cutters	84-87	— Way Paviers	92
Bristol, &c., Operatives' Union	94	Cart Building Trades	70
Britannia Metal Workers	30	Carters	58-61
Bronze Moulders	20	—, Quay and Railway	62
Brown Saddlers	86	Cart Gear Makers	30
Brush Making	82	Carvers and Gilders	74
Buckle and Cart Gear Makers	30	—, Stone	2
Buffers, Hollow-ware (Silver, &c.)	30	— (Wood)	68, 74
Builders' Labourers	6-9	Case Hame Makers	30
Building Trades	2-11	— Makers, Leather	86
Bundlers, Cigar	82	— (Packing)	74
—, Yarn (Linen and Jute)	48	Casters (Nail)	32
Busmen	58-61	Cast Iron Hollow-ware Making	26
Butcher Knife Makers	28	Caulkers	22-25
Butchers	80	— (H.M. Dockyard)	96
Button and Stud Workers	92	Chain, Cart Gear, &c., Makers	
		—, Nail, &c., Makers	32
		Chair Makers	68
		Chemical Trades	76
		Chimney Sweeps	92
		China Potters	78
		Chippers (Engineering)	18
		Cigar and Cigarette Trades	80-83
		Circular Hosiery Workers	48

C.

Cabinet Makers	68
Cabmen	58-61
Calender Workers	52
Calico Printers	52
